

For: State and County Offices, CMA's, DMA's, and LSA's

Temporary Halt of APSS and MILC Corrections

Approved by: Deputy Administrator, Farm Programs

1 Overview

A Background

Implementation of the Financial Management Modernization Initiative – Readiness (FMMI-R) Release II removed all accounting functionality from System 36. The National Receipts and Receivables System web application is a portion of FMMI-R Release II and has replaced ACS, CRS, and the Cash Receipts System formerly housed on System 36.

Previously, offsets to disbursements were handled by manual intervention. The deployment of FMMI-R Release II automated the receivable collection process, which no longer requires County Office users to manually select receivables to be offset.

Because of the number of payment transactions that will be generated in October 2010, APSS and MILC corrections **shall not** be processed during CRP and DCP payment processing.

When the heavy volume of CRP and DCP payment processing has declined, correction processing will resume in APSS and MILC software.

B Purpose

This notice instructs States and County Offices that beginning October 1, 2010, corrections for any APSS-generated disbursement, including FSFL corrections, and MILC payments shall **not** be processed until further notice to reduce complications during CRP and DCP payment processing.

Disposal Date	Distribution
March 1, 2011	State Offices; State Offices relay to County Offices, CMA's, DMA's, and LSA's

Notice PS-672

1 Overview (Continued)

C Contact

For questions about this notice, State Offices shall contact Shayla Watson, PSD, by either of the following:

- e-mail to shayla.watson@wdc.usda.gov
- telephone at 202-690-0013.

2 APSS-Generated and MILC Disbursement Corrections

A Halt of Corrections

Beginning October 1, 2010, County Offices shall **not** process APSS corrections to reduce the number of receivables and payments generated.

B Return to Normal Processing

The correction processing for APSS-generated disbursements and MILC payments will resume after CRP and DCP payment processing has decreased.

Field Offices will be informed when correction processing may resume.
