

For: State and County Offices

**Enhanced MILC Payments Correction Software Release**

Approved by: Acting Deputy Administrator, Farm Programs

**1 MILC Payments Correction Software**

**A Background**

Notice PS-667 and Web Application Transmittal No. 205 provided instructions to enhanced MILC Correction software that included functionalities:

- to recheck eligibility/AGI for underpayments
- for overpayment correction.

The previous releases of the MILC Correction software still had functionalities that needed enhancement to make additional payments to producers who were previously underpaid and to record overpayments.

**B Purpose**

This notice informs State and County Offices that the MILC Correction software is now fully functional.

**C Available Correction Functions**

County Offices may access the MILC application to make corrections to payments that may result in either of the following:

- an underpayment that will create an additional payment
- an overpayment that will create a receivable in NRRS.

**Note:** The MILC Correction software is fully functional to correct all existing payment corrections. However, if it is necessary to correct the same contract **more than twice** before the payment is issued, contact the Application Support Group at 1-800-255-2434 for assistance **before** attempting to access payment corrections.

<b>Disposal Date</b>	<b>Distribution</b>
