

**For:** State and County Offices

**Milk Loss Program (MLP) Policy and Procedures**

**Approved by:** Acting Deputy Administrator, Farm Programs

**1 Overview**

**A Background**

MLP is authorized by the Extending Government Funding and Delivering Emergency Assistance Act of 2021 and the Disaster Relief Supplemental Appropriations Act, 2023. Under the Act, MLP is authorized to pay for eligible losses that occurred in calendar years 2020, 2021, and 2022. Additionally, the Disaster Relief Supplemental Appropriations Act, 2023 authorizes assistance for eligible milk losses due to tornadoes that occurred in 2022.

MLP provides indemnity to eligible dairy operations for milk that was dumped or removed without compensation from the commercial milk market due to droughts, wildfires, hurricanes, floods, derechos, excessive heat, winter storms, freeze, including polar vortex, and smoke exposure that occurred in the 2020, 2021, and 2022 calendar years. MLP assists America’s farmers and ranchers to recover from these storms and disasters.

**B Purpose**

This notice provides State and County Offices with policies and procedures including automation and payment provisions for MLP.

### 2 MLP Applicability

#### A Administration

MLP will be:

- administered on behalf of CCC under the general supervision of the FSA Administrator and DAFP
- carried out by STC's and COC's with instructions issued by DAFP.

STC's, COC's, their representatives, and employees do not have authority to modify or waive any provisions or regulations.

**Exception:** DAFP may authorize STC's and COC's to waive or modify non-statutory deadlines and other program requirements for cases where lateness or failure to meet these other requirements does not adversely affect the operation of MLP.

## Notice SP-108

### 2 MLP Applicability (Continued)

#### B Administration Responsibilities (Continued)

STC's will:

- take any required action not taken by COC
- correct or require correction of a COC action that is not in compliance
- require COC to not act or implement a decision that is not authorized.

DAFP, or a designee, may determine any question arising under MLP or reverse or modify a determination made by STC or COC.

### 3 MLP Signup

#### A Application Period for Accepting FSA-376 (Exhibit 1)

County Offices may begin accepting FSA-376's on **September 11, 2023**. The signup period will end on **October 16, 2023**. Eligible applicants may file FSA-376 for benefits any time during the application period.

All producers applying for MLP must self-certify to the accuracy and truthfulness of the information provided on FSA-376 and any documentation filed with or in support of the application. Providing a false certification will result in ineligibility and can also be punishable by imprisonment, fine, and other penalties.

#### B Deadline to Submit Supporting Documentation

Producers who submitted FSA-376 during the sign-up period will have until December 16, 2023, to provide payment eligibility and supporting documentation.

### 4 MLP Eligibility Requirements

#### A MLP Applicant Eligibility

To be an eligible MLP applicant, the dairy operation must have:

- dumped or removed milk without receiving compensation for the commercial milk market due to qualifying disaster events
- provide the required documentation at application according to paragraph 5

## Notice SP-108

### 4 MLP Eligibility Requirements (Continued)

#### A MLP Applicant Eligibility (Continued)

- submit any payment eligibility and supporting documentation by December 16, 2023
- complete and submit FSA-376 according to subparagraph 6 A.

**Note:** Dairy operations that received partial compensation for dumped or discarded milk are eligible for compensation through MLP for the portion of milk that was not compensated.

#### B Producers Ineligible for MLP

The following persons or legal entities are ineligible for MLP.

- Federal, State, and local governments, including public schools, as defined in 5-PL and 6-PL
- foreign producers.

#### C Requirements for Applicants

**Before** FSA-376 can be approved, applicants **must**:

- be in compliance with:
  - DCIA from producer certification
  - controlled substance provisions
  - fraud provisions
- not be suspended, debarred, or otherwise excluded from participating in FSA/CCC programs according to 1-CM, paragraph 823
- be one of the following:
  - a citizen of the United States
  - resident alien of the United States
  - partnership of citizens or resident aliens of the United States

## Notice SP-108

### 3 MLP Eligibility Requirements (Continued)

#### C Requirements for Applicants (Continued)

- corporation, limited liability company, or other organizational structure organized under State law and solely owned by U.S. citizens or resident aliens
- Indian Tribe or Tribal organization, as defined in section 4(b) of the Indian Self Determination and Education Assistance Act (25 U.S.C. 5304).

#### D Payment Eligibility Forms

The following forms must be submitted within 60 calendar days of the MLP application deadline, if not previously filed with FSA.

- AD-2047, Customer Data Worksheet
- CCC-860, Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification
- CCC-901, Member Information for Legal Entities, if applicable
- CCC-902, Farm Operating Plan for an individual or legal entity
- FSA-510, Request for an Exception to the \$125,000 Payment Limitation for Certain Programs
- AD-1026, Highly Erodible Land Conservation (HELIC) and Wetland Conservation (WC) Certification.

#### E AGI Provisions and Payment Limitation

AGI limitations according to 5-PL and 6-PL do not apply to MLP, however the payment limitation for MLP is determined by the person's or legal entity's average adjusted gross farm income (income derived from farming, ranching, and forestry operations). Specifically, a person or legal entity, other than a joint venture or general partnership, cannot receive, directly or indirectly, more than \$125,000 in payments under MLP. If the resulting average adjusted gross farm income derived of the definition of "income derived from farming, ranching, and forestry operations" is at least 66.66 percent of the average AGI of the person or legal entity, then the average adjusted gross farm income may also take into consideration income or benefits derived from the following:

- the sale of equipment to conduct farm, ranch, or forestry operations
- the provision of production inputs and services to farmers, ranchers, foresters, and farm operations.

## Notice SP-108

### 3 MLP Eligibility Requirements (Continued)

#### E AGI Provisions and Payment Limitation (Continued)

The relevant tax years are:

- for the 2020 program year, 2016, 2017, and 2018
- for the 2021 program year, 2017, 2018, and 2019
- for the 2022 program year, 2018, 2019, and 2020.

To receive more than \$125,000 in MLP payments, producers must submit FSA-510, accompanied by a certification from a certified public accountant or attorney as to that person's or legal entity's certification. If a producer requesting the \$250,000 payment limitation is a legal entity, all members of that entity must also complete FSA-510 and provide the required certification. If a legal entity could be eligible for the \$250,000 payment limitation based on the legal entity's average AGI from farming, ranching, or forestry related activities but a member of that legal entity either does not complete an FSA-510 and provide the required certification or is not eligible for the \$250,000 payment limitation, the payment to the legal entity will be reduced for the limitation applicable to the share of the MLP payment attributed to that member.

A payment made to a legal entity will be attributed to those members who have a direct or indirect ownership interest in the legal entity unless the payment of the legal entity has been reduced by the proportionate ownership interest of the member due to that member's ineligibility.

Attribution of payments made to legal entities will be tracked through four levels of ownership in legal entities as follows:

- first level of ownership: Any payment made to a legal entity that is owned in whole or in part by a person will be attributed to the person in an amount that represents the direct ownership interest in the first-level or payment legal entity.
- second level of ownership: Any payment made to a first-level legal entity that is owned in whole or in part by another legal entity (referred to as a second-level legal entity) will be attributed to the second-level legal entity in proportion to the ownership of the second-level legal entity in the first-level legal entity; if the second-level legal entity is owned in whole or in part by a person, the amount of the payment made to the first-level legal entity will be attributed to the person in the amount that represents the indirect ownership in the first-level legal entity by the person.
- third and fourth levels of ownership: Except as provided in the second level of ownership bullet above and in the fourth level of ownership bullet below, any payments made to a legal entity at the third and fourth levels of ownership will be attributed in the same manner as specified in the second level of ownership bullet above.

## Notice SP-108

### 3 MLP Eligibility Requirements (Continued)

#### E AGI Provisions and Payment Limitation (Continued)

- fourth level of ownership: If the fourth level of ownership is that of a legal entity and not that of a person, a reduction in payment will be applied to the first-level or payment legal entity in the amount that represents the indirect ownership in the first-level or payment legal entity by the fourth-level legal entity.

Payments made directly or indirectly to a person who is a minor child will be combined with the earnings of the minor's parent or legal guardian.

Forthcoming eligibility standards will require a producer that is a legal entity must provide the names, addresses, ownership share, and valid taxpayer identification numbers of the members holding an ownership interest in the legal entity. Payments to a legal entity will be reduced in proportion to a member's ownership share when a valid taxpayer identification number for a person or legal entity that holds a direct or indirect ownership interest, at the first through fourth levels of ownership in the business structure, is not provided to FSA.

If an individual or legal entity is not eligible to receive MLP payments due to the individual or legal entity failing to satisfy payment eligibility provisions, the payment made either directly or indirectly to the individual or legal entity will be reduced to zero. The amount of the reduction for the direct payment to the producer will be commensurate with the direct or indirect ownership interest of the ineligible individual or ineligible legal entity. Like other programs administered by FSA, payments made to an Indian Tribe or Tribal organization, as defined in section 4(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304), will not be subject to payment limitation.

For producers who submit FSA-510, the County Office must set the AGI 75% Rule to 'Yes' in Subsidiary for the \$250,000 payment limitation to apply.

#### F SDA, Limited Resource, Beginning, and Veteran Farmer Certification

Producers requesting eligibility consideration based on SDA, limited resource, beginning, or veteran farmer or rancher status must provide their certification on CCC-860 according to 1-CM, paragraph 950.

For producers meeting eligibility under this section, the MLP payment will be calculated by multiplying a 90 percent factored FSA payment rate.

For producers who submit CCC-860, the County Office must set the appropriate SDA status to 'Yes' in Subsidiary for the 90 percent payment rate to apply.

## Notice SP-108

### 4 General MLP Policies

#### A Eligible Disaster Events

MLP will provide payments to eligible producers for milk that was dumped or removed without compensation from the commercial market as a result of a qualifying disaster event. Losses of dumped milk must be directly related to an eligible disaster event that occurred in calendar year 2020, 2021, or 2022 such as:

- drought
- wildfire
- hurricane
- flood
- smoke exposure
- derecho
- excessive heat
- winter storm
- freeze, including polar vortex
- tornado (applicable for 2022).

#### B Base Period

The base period is the full calendar month of milk production preceding the month in which the milk was dumped or removed.

The number of days marketed for a calendar month is equal to the number of days for that base period.

**Example:** February 2020 had 28 days, which means that the number of days marketed in the base period is 28.

#### C Claim Period

The claim period is the full calendar month period in which the milk was dumped and not commercially marketed. The claim period includes the period eligible for indemnification in which the dairy operation would have sold milk in the commercial market had it not been dumped due to the disaster event.

A claim period may cross over into the next month, depending on when the milk would have been marketed. However, a separate FSA-376 will be required.

#### D Eligible Period

The period eligible for MLP benefits:

- begins on the day the milk was dumped and not shipped on the commercial market
- ends on the day the milk was last dumped or removed.

**Note:** MLP benefits are limited to 30 days per calendar year.

## Notice SP-108

### 4 General MLP Policies (Continued)

#### E Determining Calendar Days Off the Commercial Market

County Offices will determine days off the commercial market based on the dates the milk was removed from and reinstated back to the commercial market depending on the circumstances of the disaster event. The total number of days off the market depends on the following:

- time of day of milkings (a.m. or p.m.)
- milkings missed during time of removal
- frequency of milk pickups.

When all milk stored on the farm at the time of the first pickup after reinstatement is not included, COC will determine the following:

- pounds above normal that was included in the second and third pickups
- number of milkings represented by the above normal pounds, based on the average pounds per milking
- that the additional number of milkings is included with the number of milkings determined for the first pickup, to establish the total number of milkings of stored production available when the first pickup occurred.

**Note:** Depending on the timing of dumped milk or milk pick up and/or the amount of tank storage, the daily marketings prior to or after may not correspond with the dumped milk amounts. County Offices will consider all factors involved in determining days off the commercial market. The days off the market may be for part of a day.

**Example:** 4.5 days off the market.

#### F Average Production Per Cow Per Day

Milk loss payments are based on the normal milk marketings including the average daily milk production per cow in the base period. Normal milk marketings are:

- based on the average daily production during the base period
- adjusted for any change in the daily average number of cows milked during each pay period the milk is off the market compared with the average number of cows milked during the base period.

## Notice SP-108

### 4 General MLP Policies (Continued)

#### F Average Production Per Cow Per Day (Continued)

Average production per cow per day is determined by:

- dividing the base period production by the number of cows milked during the base period to get the average production per cow during the base period
- dividing the result (average production per cow per day during the base period) by the number of days during the base period the milk was commercially marketed to get the average production per cow per day.

#### G Fair Market Value

The fair market value of a MLP applicant's normal milk marketings is determined from the sum of the net proceeds the applicant would have received for their normal milk marketings during the eligible days in the claim period.

Once the fair market value of the milk is determined, the net proceeds the applicant would have received for the pay period for the milk dumped and not shipped to the commercial market can be calculated.

#### H Net Payment Price

The net payment price is determined by deducting the following from the gross payment price:

- base hauling fee

**Note:** The base hauling fee is the only charge allowed to be claimed. Stop charges and mileage costs will not be included in the allowable hauling fee.

- promotional fees.

**Note:** Promotional fees will be equivalent to the industry standard rate of \$0.15 cwt and is deducted by the software in calculating the net payment price.

## Notice SP-108

### 5 Required Documentation

#### A Milk Marketing Statements

The MLP applicant must provide a copy of all sales documents or monthly milk marketing statements for milk marketed during:

- the base period
- the claim period.

The following information from the marketing statements is used for the Milk Loss Application (FSA-376):

- base period monthly production
- claim period monthly production
- date record of when milk was picked up
- gross payment price per cwt
- hauling fee per cwt.

**Note:** The copy of the sales documents will include the applicant's milk pickups during the first 1 to 2 weeks after reinstatement to commercial markets. This is required so the County Office can determine how many days of milk production were in the applicant's milk tank when the applicant was reinstated to commercial markets.

If sales documents are received from more than 1 handler for an applicant, enter the weighted average price as the:

- gross payment price, if the net payment price is not known
- net payment price, if the net payment price is provided on all sales documents.

The following is an example of a weighted average price computation:

- milk marketed with Handler A totaled 5,000 cwt.; milk marketed with Handler B totaled 1,000 cwt.
- Handler A paid an average price of \$11.25 per cwt.; Handler B paid an average price of \$11.00 per cwt.

If the affected farmer has specific documentation regarding the pounds of milk dumped the County Office can use that information to assist in completing FSA-376.

## Notice SP-108

### 5 Required Documentation (Continued)

#### A Milk Marketing Statements (Continued)

Step	Action	Calculation
1	Add the total cwt. of milk marketed by both handlers.	$5,000 + 1,000 = 6,000$ cwt.
2	For each handler, multiply cwt. marketed by the handler times the price paid by that handler.	$\$11.2500 \times 5,000$ cwt. = \$56,250 $\$11.0000 \times 1,000$ cwt. = \$11,000
3	Add the result of step 2.	$\$56,250 + \$11,000 = \$67,250$
4	Divide the result of step 3 by 6,000 cwt.	$\$67,250 / 6,000 = \$11.208333$ rounded to \$11.2083  <b>Note:</b> Carry the calculation to 6 decimal places to the right of the decimal point and round back to 4 decimal places.

#### B Information Needed to Process Milk Loss Application (FSA-376)

For the MLP application (FSA-376) to be completed in addition to the milk marketing statements, the applicant will provide the County Office documentation of the following:

- number of cows milked in base and claim period
- pounds of milk marketed in base and claim period
- days milk marketed in base and claim month
- number of milkings per day
- approximate time of daily milking(s)
- approximate time and frequency the milk is picked up by the marketing organization
- number of days milk loss claimed
- if a prior month milk loss occurred
- type of weather event that caused the milk loss
- size of the geographic area affected by the disaster event
- whether the milk was measured before removal
- pounds of the milk removal (if applicable)
- other noteworthy details of the disaster event
- payment record for dumped milk partially compensated (if applicable).

## Notice SP-108

### 6 MLP Program Application

#### A Completing FSA-376

Dairy operations will complete FSA-376 to apply for MLP benefits.

FSA-376 is filed for the month in which there is a milk loss. If the milk loss extends into another month, a second FSA-376 will be created for the additional month.

**Note:** Producers are only eligible to submit indemnity claims for a maximum of 30 days per year for 2020, 2021, and 2022.

#### B Second-Party Review of FSA-376

Before approval, a second-party review must be completed. The second-party reviewer must enter their initials and the date the second-party review was completed. The employee completing this review must not be an employee who assisted the producer in completing FSA-376.

#### C Approval of FSA-376

County Office employees authorized to approve applications for MLP can do so only after all:

- producer signatures are received on a completed FSA-376
- program eligibility requirements have been met.

COC may also request additional information as necessary. Producers must maintain records for 3 years after application is submitted.

**Note:** 2022 MLP applications can be accepted but **not** approved until notification from the National Office.

#### D Disapproved FSA-376's

If FSA-376 is disapproved by COC, the County Office must inform the producer of the determination in writing and provide applicable appeal rights according to 1-APP.

#### E Spot-Check Procedures

Spot-check procedures will be provided in the future as necessary.

#### F Redelegation Authority

COC's may redelegate FSA-376 signing authority to CED's and record in the meeting minutes.

### 7 MLP Automation

#### A Overview

All MLP functions:

- are automated within the web-based software
- can only be updated by FSA employees with eAuthentication Level II certification.

#### B Accessing the MLP System

Access the MLP application according to the following table.

Step	Action
1	Access the FSA Applications Intranet page at <a href="https://intranet.fsa.usda.gov/fsa/applications.asp">https://intranet.fsa.usda.gov/fsa/applications.asp</a>
2	Under FSA Applications, Applications Directory, CLICK “G-O”.
3	CLICK “MLP-Milk Loss Program”. The Home Screen is displayed.

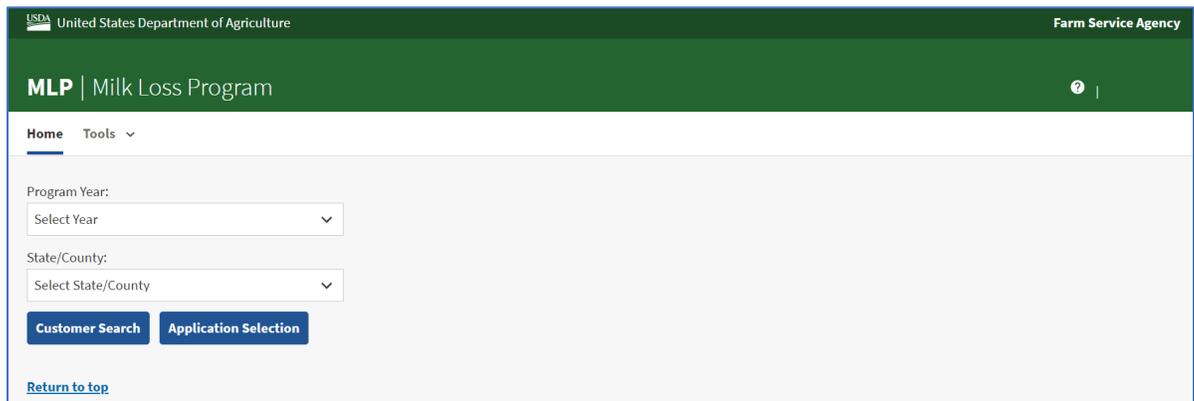

### 8 MLP Home Screen

#### A Overview

The MLP Home Screen allows users to select the applicable program year, State, and county. The Administrative State/County will default to “Select One”. The user must select the correct Admin State/County from the drop-down menu which will display a complete list of counties for the selected applicant.

#### B Example of MLP Home Screen

The following is an example of the MLP Home Screen.

The screenshot shows the MLP Home Screen interface. At the top, there is a green header with the USDA logo and text "United States Department of Agriculture" on the left, and "Farm Service Agency" on the right. Below the header, the page title "MLP | Milk Loss Program" is displayed. A navigation bar includes "Home" (underlined) and "Tools" with a dropdown arrow. The main content area features two dropdown menus: "Program Year:" with "Select Year" and "State/County:" with "Select State/County". Below these are two buttons: "Customer Search" and "Application Selection". At the bottom left, there is a link "Return to top".

### 14 Joint Ventures Without a TIN

#### A Overview

When a dairy operation is a joint venture (Business Type 03) and does not have valid TIN, payees must be added to the MLP Application before the application can be saved.

**Note:** A warning message will be displayed on Part B – Dairy Operation Screen to let you know that payees will need to be added. The Add Payee section will be completed on Part D & E - Milk Price and Certification Screen.

#### B Example of Add Payee Section on the Summary Screen

The following is an example of Part D & E – Milk Price and Certification Screen when payees need to be added.

The screenshot displays the 'MLP | Milk Loss Program' interface. The navigation bar includes 'Home', 'Tools', and 'Admin'. The main content area shows the 'Part D & E - Milk Price & Certification' section. Key information includes: Program Year: 2020, State: Kansas (20), County: Washington (201), Application Status: Initiated, Producer: JOINT VENTURE W/OUT TIN, Admin State: Kansas (20), Admin County: Washington (201), and Application ID: 2377. The 'Milk Price Information' section contains input fields for 'Gross Payment Price (CWT)' (21.0000) and 'Hauling Fees (CWT)' (2.7500). A certification statement is followed by a 'YES' radio button (checked) and a 'NO' radio button. Below this is a table for payees:

Payee Name	Share %	Refuse Payment	Action
PRODUCER, ANY	<input type="text" value="49.5000"/>	<input type="radio"/> Yes <input checked="" type="radio"/> No	<a href="#">Delete</a>

### 17 COC Determination Electronic Approval

#### A Overview

Electronic approval allows authorized users who have been delegated authority by COC to electronically approve applications instead of a physical signature.

**Warning:** All County Office employees have access to the electronic approval process; however, only employees with the appropriate authority should enter the electronic approval. Written signatures documenting COC approval are not required if this option is taken.

The approving official’s name will print in the “COC or Designee Signature” block on the applicable form and the system date will be entered for the approval date.

**Note:** Applications that do not have a producer’s signature date recorded will not be displayed on the Electronic Approval Screen.

### 20 General Payment Provisions for MLP Payments

#### A Introduction

The MLP payment process is an automated process that determines:

- whether the producer is eligible to receive payment
- the payment amount that can be sent to NPS for disbursement
- the overpayment amount that will be updated to the Pending Overpayment Report.

#### B Payment Policy

See 9-CM, Part 2 for general payment policy for the following:

- eligible ID types and business types
- payment eligibility
- joint operations and entities
- general provision for overpayments.

#### C Frequency of Payment Processing

MLP payments are processed nightly for the following:

- applications that were approved during the workday
- changes made in the system that could affect the producer's payment or overpayment amount determination.

**20 General Payment Provisions for MLP Payments (Continued)**

**D Payment Due Date**

61-FI provides general guidance for determining MLP payment due dates. The MLP payment system sends the current system date plus 30 calendar days to NPS as the payment due date. The system **cannot** determine the payment due date because of numerous factors. County Offices will manually determine the payment due date as the later of the following:

- date producer signed FSA-376
- date producer filed payment eligibility documentation, including the following:
  - AD-1026
  - CCC-902
  - CCC-901 (if applicable)
  - FSA-510 (if applicable)
- date members filed the requisite payment eligibility documentation if the producer is an entity or joint operation
- the availability of the software to process the payment.

If the payment is **not** issued within 30 calendar days after the later of the dates in this subparagraph, then prompt payment interest is payable to the producer. County Offices will:

- manually determine the payment due date based on the factors identified in this subparagraph
- follow the provisions of 61-FI for issuing the interest payment.

**E Payments Less Than \$1**

MLP payments will be processed in dollars and cents so all payment amounts will be sent to NPS.

**F Sequestering MLP Payments**

MLP payments are not subject to sequestration.

**G Assignments**

A producer entitled to an MLP payment may assign the payment according to 63-FI.

## Notice SP-108

### 20 General Payment Provisions for MLP Payments (Continued)

#### H Offsets

MLP payments are subject to offset, including Treasury Offset Program (TOP), and may be assigned, provided CCC-36 is submitted by the applicant before payment is made. County Offices will follow 63-FI to process assignments.

#### I Bankruptcy

Bankruptcy status does **not** exclude a producer from requesting MLP benefits.

**Important:** Contact the OGC Regional Attorney for guidance on issuing MLP payments on all bankruptcy cases.

#### J Obtaining FSA-325 for Deceased, Disappeared, or Incompetent Producers

Follow 1-CM provisions for persons who have died, disappeared, or have been declared incompetent.

#### K Funds Control Process

The funds for MLP payments will be controlled at the National level. If adequate funding is not available, those producers that cannot be paid will be listed on the Failed Obligations / Insufficient Funds Report in the Common Payment Reports System.

### 21 Payment Limitation Provisions

#### A Payment Eligibility and Limitation Information for MLP Payments

The payment limitation is \$125,000 for each program year per person or legal entity, other than general partnerships and joint ventures, and will be attributed through direct attribution.

As each payment is processed, the available payment limitation for the person or legal entity will be reduced until:

- all MLP payments are issued for the person or legal entity
- the maximum payment limitation has been attributed to a person or legal entity.

**Notice SP-108**

**22 MLP Subsidiary Payment Eligibility Determinations**

**A Introduction**

The payment process reads the web-based eligibility system, for the year associated with FSA-376 to determine whether a producer or member of a joint operation is eligible to be paid. If the producer or member is ineligible to be paid, the payment will not be issued or will be reduced, and the producer or member will be listed on the Nonpayment Report with the applicable message.

**B MLP Subsidiary Payment Eligibility**

The following identifies web-based eligibility determinations applicable to MLP payments and how the system will use the web-based subsidiary eligibility data for payment processing.

If a producer has multiple invalid subsidiary eligibility conditions, only the highest priority ineligible condition as provided in subparagraph C, will be printed on the Nonpayment Report.

The following eligibility provisions apply to MLP payments.

<b>Eligibility Determination/Certification</b>	<b>Value</b>	<b>Eligible for MLP Payment</b>	<b>Exceptions</b>
AD-1026	Certified	Yes	
	Not Filed	No	
	Good Faith Determination	Yes	
	COC Exemption	Yes	
	Awaiting Affiliate Certification	No	
	Affiliate Violation	No	
Conservation Compliance – Farm/Tract Eligibility	In Compliance	Yes	3/ A partial compliance value of Yes” will result in an additional determination for the farm.
	Partial Compliance	Yes 3/	
	In Violation	No	
	No Association	No	
	Past Violation	No	
	Reinstated	Yes	

**Notice SP-108**

**B MLP Subsidiary Payment Eligibility (Continued)**

<b>Eligibility Determination/Certification</b>	<b>Value</b>	<b>Eligible for MLP Payment</b>	<b>Exceptions</b>
Controlled Substance	No Violation	Yes	
	Growing	No	
	Trafficking	No	
	Possession	No	

**C Eligibility Conditions Priority**

If a person or legal entity has multiple invalid subsidiary eligibility conditions, only the highest priority ineligible condition will be printed on the Nonpayment Report and Pending Overpayment Reports. The following table provides the priority of conditions.

<b>Priority</b>	<b>Eligibility Provision</b>
1	Conservation Compliance
2	Controlled Substance
3	AD-1026

**23 MLP Payments**

**A Supporting Files for Integrated Payment Processing**

The MLP payment process is a web-based integrated process that uses a wide range of information and other program determinations and values to determine whether a payment should be issued, the amount of gross payment, reductions, and the net payment amount. For payments to be calculated correctly, all supporting files must be updated correctly, including **all** of the following.

<b>Type of Information</b>	<b>How Information Is Used for Payment Processing</b>	<b>Source</b>
FSA-376	The information from an approved FSA-376 is used to compute the MLP payment.	Application
Payment Eligibility Information	Used to determine whether the producer and/or member of a joint operation is eligible for payment for the year for which FSA-376 was filed.	Web-Based Eligibility System
General Name and Address Information	Used to determine the producer's business type and general name and address information.	Business Partner/SCIMS

23 MLP Payments (Continued)

A Supporting Files for Integrated Payment Processing (Continued)

Entity and Joint Operation Information	Used to determine the following for the year for which FSA-376 was filed: <ul style="list-style-type: none"> <li>• substantive change value</li> <li>• members and member’s share of the following:                             <ul style="list-style-type: none"> <li>• entities</li> <li>• general partnerships</li> <li>• joint ventures.</li> </ul> </li> </ul>	Business File

Financial Related Information	<ul style="list-style-type: none"> <li>• Calculated payment information is provided to NPS.</li> <li>• Determined overpayment amount may be provided to NRRS.</li> </ul>	NPS or NRRS

B Canceling Payments

After payment processing has been completed, County Offices must review the Payment History Report in CPR or the NPS payment worklist to ensure that the correct payments have been generated. The user will complete the following if an error is determined:

- **not** sign the payment in NPS
- correct the condition causing the incorrect payment or overpayment.

**Notes:** User intervention is **not** allowed for the cancellation process. If the condition causing the incorrect payment is corrected, the system will automatically cancel the unsigned payment and recalculate the payment amount due.

If the payment amount is determined to be incorrect and the payment has been signed in the NPS system, the payment can no longer be canceled. The producer will be underpaid or overpaid once the condition causing the incorrect payment has been corrected.

**24 Overpayments**

**A Introduction**

The MLP payment process is an integrated process that reads data from many systems to determine whether payments issued to a producer were earned in-full or in-part. These systems include the following:

- MLP payment process
- subsidiary system including data about eligibility, combined producer, and Business File
- payment limitation system
- Business Partner/SCIMS.

If something changes in any of these systems, the MLP payment process is automatically triggered to recalculate the payment. The producer is overpaid if the information that has been changed results in the current calculated amount being less than the amount originally paid to the producer.

**B Determined Overpayments**

For any overpayment amount the system will update the applicable information to the Pending Overpayment Report. See 9-CM, paragraph 65 for information on the Pending Overpayment Report.

**C Handling Debts Less Than \$100**

County Offices must follow 58-FI for handling receivables less than \$100.

**D Debt Basis Codes**

The system automatically assigns the debt basis code to the receivable when it is updated to the Pending Overpayment Report. The following are the debt basis codes used for MLP overpayments.

<b>IF the reason the payment entity/member is overpaid is because of...</b>	<b>THEN the discovery/debt basis reason is...</b>
payment limitation issues	10-426.
payment eligibility	10-427.
prior payments exceed the current payment	10-428.

24 Overpayments (Continued)

**E Charging Program Interest on Receivables**

Program interest should accrue on receivables from the date of disbursement if COC determines the producer is ineligible because of the following:

- producer provided information on FSA-376 that is subsequently determined inaccurate
- producer erroneously or fraudulently represented any fact affecting a payment eligibility determination, including the following:
  - violation of conservation compliance provisions
  - violation of controlled substance provisions
- producer adopted a scheme or device that tended to defeat the purposes of MLP.

Program interest will **not** accrue from the date of disbursement if:

- overpayment resulted based on revised information that the producer would not have had reason to know was invalid
- National, State, or County Office error
- producer voluntarily refunds the payment that was issued, and COC has not determined that the producer is ineligible.

**E Charging Interest**

**Notes:** Software does **not** currently support charging interest from the date of disbursement. Any receivable established is sent to NRRS with the current system date. If the receivable is **not** repaid within 30 calendar days from the date the initial notification letter is issued, interest will start accruing from the date the receivable was established.

If COC determines that the producer is ineligible, and interest should accrue from the date of disbursement:

- County Offices must contact their State Office for assistance
- State Offices must contact FMD for guidance.
