Updated Version of 2008 Supplemental Revenue Assistance Payments (SURE) Interim Workbook

Approved by: Deputy Administrator, Farm Programs

1 Overview

A Background

Two issues were found with the 2008 SURE Interim Workbook Template v1.0, as follows:

- there was a widespread issue involving saving and retrieving the .xml file into the 2008 SURE Interim Workbook after data changes had been made

Example: Many counties had started a workbook and successfully saved and retrieved the workbook. After attempting to retrieve the .xml file into the 2008 SURE Interim Workbook a second or third time, after entering a partial crop line entry **or** changing any previously loaded data and then attempting to re-save, users were **not** able to successfully retrieve again.

- an error was found with the Insured Value Loss Calculation.

In 2008 SURE Interim Workbook Template v2.0 the:

- Insured Value Loss Calculation behind the scenes has been resolved
- “Guarantee Basis” cell is now dimmed because a guarantee basis is **not** provided for insured value loss crops and; therefore, will **not** appear on the 2008 SURE Interim Report
- “Field Market Value - A” cell is now highlighted.

B Purpose

2 Replacing the 2008 SURE Interim Workbook Template (Continued)

C Retrieving .xml Files Into 2008 SURE Interim Workbook Template v2.0

Any .xml files previously saved using 2008 SURE Interim Workbook Template v1.0 will successfully retrieve into the 2008 SURE Interim Workbook Template v2.0.

For insured value loss crops, in 2008 SURE Interim Workbook Template v2.0, the:

- “Guarantee Basis” cell is now dimmed because a guarantee basis is **not** provided for insured value loss crops and; therefore, will **not** be displayed on the 2008 SURE Interim Report
- “Field Market Value - A” cell is now highlighted.

If an insured value loss crop was entered into the SURE Interim Workbook using 2008 SURE Interim Workbook Template v1.0, after retrieving the .xml file into the 2008 SURE Interim Workbook Template v2.0, ensure that:

- nothing is entered into the “Guarantee Basis” cell; if there is an entry in the “Guarantee Basis” cell, **delete** it
- the “Field Market Value – A” entry is entered into the “Field Market Value – A” cell.

The only calculation that was affected by 2008 SURE Interim Workbook Template v2.0 was value loss.

IF users have completed a workbook that...	THEN the user will...
includes a value loss crop	need to retrieve the workbook into 2008 SURE Interim Workbook Template v2.0 to recalculate.
does not include a value loss crop	not need to retrieve the workbook into 2008 SURE Interim Workbook Template v2.0
