

For: Flue-Cured State and County Offices

Flue-Cured Tobacco Nonauction Receiving Stations

Approved by: Acting Deputy Administrator, Farm Programs

1 Participating Receiving Stations

A

Background

For the 2001-2002 flue-cured tobacco marketing season, FSA will pilot an electronic records and reports system to capture producer marketings at nonauction receiving stations. This electronic records and reporting system will incorporate sales data historically captured through the MQ-79 and MQ-79 (Supplemental) reports required to be filed for nonauction marketings. The pilot system will be implemented with a market recorder at each receiving station to perform similar functions as required at an auction warehouse.

B

Purpose

This notice:

- corrects Exhibit 1 of Notice TB-1005
- obsoletes TB-1005.
