Deleted and/or Added Quota Holder Report - State Office Review Delayed

Approved by: Acting Deputy Administrator, Farm Programs

1 Modifying the Deleted and/or Added Quota Holder Report

A Background

Notice TB-1241 provided instructions for spot checking the Deleted and/or Added Quota Holder Report for the required documentation to support deleting or adding owners to the Tobacco Transition Payment Program (TTPP) farm.

It has been determined that the current report:

- contains inaccurate information
- will be modified to correctly provide the names of deleted and/or added landowners to the farm.

The modified report is targeted to be available **after** September 14, 2007. A forthcoming notice will provide instructions and a new timeline for spot check completion.

B Purpose

This notice obsoletes Notice TB-1241.
