

USDA Announces Availability of Low-Interest Physical Loss Loans for Producers Affected by Avian Metapneumovirus (aMPV) Due to High Winds
News Release | Minnesota | May 28, 2024

Physical loss loans through the United States Department of Agriculture's (USDA) Farm Service Agency (FSA) can help producers repair or replace damaged or destroyed physical property essential to the success of the agricultural operation, including livestock losses. Examples of property commonly affected include essential farm buildings, fixtures to real estate, equipment, livestock, perennial crops, fruit and nut bearing trees, and harvested or stored crops and hay.

According to research, Avian Metapneumovirus (aMPV) can migrate with wind and due to the contagious nature of the virus, biosecurity efforts and quarantines have been ineffective. Producers impacted by aMPV due to high winds should contact their local FSA office if interested in applying for a physical loss loan.

Impacted Area: Minnesota

Triggering Disaster: High Winds

Application Deadline: January 24, 2025

Primary Counties Eligible:

Aitkin	Fillmore	Marshall	Rock
Anoka	Freeborn	Martin	Roseau
