

Dairy Margin Coverage (DMC) Weekly Report on Enrollment, Production and Payments Now Available

| July 23, 2019

Report will post on Mondays at 2:00 PM Eastern

July 23, 2019 - The U.S. Department of Agriculture's Farm Service Agency (FSA) opened enrollment for the [Dairy Margin Coverage](#) (DMC) program on June 17 and began issuing payments to producers on July 11. Weekly DMC program enrollment, production and payment updates will be posted every Monday at 2:00 PM Eastern. To obtain the latest in DMC delivery data, [click here](#).

Authorized by the 2018 Farm Bill, DMC replaces the Margin Protection Program for Dairy (MPP-Dairy). The program offers protection to dairy producers when the difference between the all-milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer.

DMC provides coverage retroactive to January 1, 2019. To date, 2019 income over feed cost margins have triggered DMC payment for January, February, March, April and May. Enrollment for DMC ends on Sept. 20, 2019. For more information, visit [farmers.gov DMC webpage](#).
