<b>U.S. Average</b>	\$7.00	\$7.00

- U.S. Average rate applies to all other states not listed above.

- For warehouse-stored loans, national loan rates for whole and broken kernels are used to establish loan proceeds based on the milling out-turns reported on the warehouse receipt.
- The loan rate for long grain whole kernels is \$11.03 per cwt.; for medium grain (including short grain), \$10.27 per cwt.; and for broken kernels (all classes), \$7.81 per cwt.
- Marketing assistance loans for the 2025 rice crop are available through May 31, 2026

## More Information

Marketing Assistance Loans provide interim financing to producers so that commodities can be stored after harvest when market prices are typically low and sold later when market conditions may be more favorable. The 2018 Farm Bill extended the Marketing Assistance Loan program, making production for the 2019 through 2023 crops eligible for loan benefits. The Further Continuing Appropriations and Other Extensions Act, 2024, was authorized on Nov. 16, 2023, extending the 2018 Act for the 2024 crop year. A one-year extension of the 2018 Farm Bill contained within the American Relief Act, 2025, signed on Dec. 21, 2024, authorized an extension of the Marketing Assistance Loan and other farm bill provisions for 2025 crops.

The CCC's domestic agricultural price and income support programs are carried out primarily through the personnel and facilities of FSA and AMS.
