

Trump Administration Appoints Hilary Maricle to Serve as State Executive Director for USDA's Farm Service Agency in Nebraska

News Release | Nebraska | May 27, 2025

Nebraska

WASHINGTON, May 27, 2025- The Trump Administration recently appointed Hilary Maricle as the new State Executive Director (SED) for the USDA Farm Service Agency (FSA) in Nebraska. Maricle joined the Nebraska FSA team on May 5, 2025.

"When America's farming communities prosper, the entire nation thrives. This new group of USDA appointees will ensure President Trump's America First agenda is a reality in rural areas across the country. I am grateful for the leadership of these new state directors and look forward to their work reorienting the agency to put Farmers First again," said Agriculture Secretary Brooke Rollins.

"FSA State Executive Directors serve in a critical role carrying out USDA's mission at the state level - ensuring that our focus is on meeting the needs of local agricultural producers by putting farmers and ranchers first," said FSA Administrator Bill Beam. "Rural communities need our support now more than ever. Our newly appointed state leaders bring a wealth of knowledge and expertise to their position as SED, and they will play an integral role in shaping the future of agriculture in their state."

Most recently, Maricle served as Deputy Director for the Nebraska Department of Agriculture. She previously served on the Nebraska Environmental Quality Council, American Farm Bureau Ag Promotion and Education Committee, American and Nebraska Farm Bureau Foundation Boards and as a county commissioner. Maricle and her husband, Brian, are sixth generation farmers in central Nebraska where they raise beef, corn, soybeans, alfalfa, and lambs with their children and parents at Maricle Family Farms.

As SED, Maricle is responsible for overseeing the delivery of FSA programs to agricultural producers in Nebraska. These commodity, conservation, credit, and disaster assistance programs ensure a safe, affordable, abundant and nutritious food, fiber, and fuel supply for all Americans. See [USDA news release](#) for full list of recent FSA and Rural Development appointees.

FSA helps America's farmers, ranchers and forest landowners invest in, improve, protect and expand their agricultural operations through the delivery of agricultural programs for all Americans. FSA implements agricultural policy, administers credit and loan programs, and manages conservation, commodity, disaster recovery and marketing programs through a national network of state and county

offices and locally elected county committees. For more information, visit fsa.usda.gov.
