

Trump Administration Appoints Ronald Garrett to Serve as State Executive Director for USDA's Farm Service Agency in North Carolina

News Release | North Carolina | June 03, 2025

WASHINGTON, June 3, 2025 - The Trump Administration recently appointed Ronald Garrett as the new State Executive Director (SED) for the USDA Farm Service Agency (FSA) in North Carolina. Garrett joined the North Carolina FSA team on May 5, 2025.

"When America's farming communities prosper, the entire nation thrives. This new group of USDA appointees will ensure President Trump's America First agenda is a reality in rural areas across the country. I am grateful for the leadership of these new state directors and look forward to their work reorienting the agency to put Farmers First again," said Agriculture Secretary Brooke Rollins.

"FSA State Executive Directors serve in a critical role carrying out USDA's mission at the state level - ensuring that our focus is on meeting the needs of local agricultural producers by putting farmers and ranchers first," said FSA Administrator Bill Beam. "Rural communities need our support now more than ever. Our newly appointed state leaders bring a wealth of knowledge and expertise to their position as SED and they will play an integral role in shaping the future of agriculture in their state."

Most recently Garrett served as a County Executive Director for FSA for almost 34 years. He started his career with FSA as a County Operations Trainee in 1991 and worked in several county offices after completing his training. Garrett has received numerous awards from the National Association of State and County Office Employees for service to his community, FSA and agriculture. He earned his Bachelor of Science degree in agricultural business management from North Carolina State University.

As SED, Garrett is responsible for overseeing the delivery of FSA programs to agricultural producers in North Carolina. These commodity, conservation, credit, and disaster assistance programs ensure a safe, affordable, abundant and nutritious food, fiber, and fuel supply for all Americans. See [USDA news release](#) for full list of recent FSA and Rural Development appointees.

FSA helps America's farmers, ranchers and forest landowners invest in, improve, protect and expand their agricultural operations through the delivery of agricultural programs for all Americans. FSA implements agricultural policy, administers credit and loan programs, and manages conservation, commodity, disaster recovery and marketing programs through a national network of state and county offices and locally elected county committees.
