

## USDA Designates 20 Counties in Florida as Primary Natural Disaster Areas Due to Winter Storm with Contiguous Counties in Georgia

**Emergency Designation | Georgia | April 29, 2026**

Georgia

This Secretarial natural disaster designation allows the United States Department of Agriculture (USDA) Farm Service Agency (FSA) to extend much-needed emergency credit to producers recovering from natural disasters through [emergency loans](#). Emergency loans can be used to meet various recovery needs including the replacement of essential items such as equipment or livestock, reorganization of a farming operation, or to refinance certain debts. FSA will review the loans based on the extent of losses, security available, and repayment ability.

### Triggering Disaster #1
