

USDA Designates Several Nebraska Counties as Natural Disaster Areas

News Release | Nebraska | August 16, 2022

Nebraska

(LINCOLN, Nebraska - Aug. 16, 2022) This stakeholder notification represents four separate Secretarial natural disaster designations and one Administrator's Physical Loss Notification.

Such designations allow the United States Department of Agriculture (USDA) Farm Service Agency (FSA) to extend much-needed emergency credit to producers recovering from natural disasters through emergency loans. [Emergency loans](#) can be used to meet various recovery needs including the replacement of essential items such as equipment or livestock, reorganization of a farming operation or the refinance of certain debts. FSA will review the loans based on the extent of losses, security available and repayment ability.

According to the [U.S. Drought Monitor](#), counties listed in four of these designations suffered from a drought intensity value during the growing season of 1) D2 Drought-Severe for 8 or more consecutive weeks or 2) D3 Drought-Extreme or D4 Drought-Exceptional. The triggering disaster for the Administrator's Physical Loss Notification was tornado, excessive rain, hail, high winds and lightning.
