December 5 is the Last Day to Return Ballots

BOISE, IDAHO, Nov. 9, 2022 — The U.S. Department of Agriculture (USDA) began mailing ballots this week for the Farm Service Agency (FSA) [county and urban county committee elections](#) to all eligible agricultural producers and private landowners across the country. Elections are occurring in certain Local Administrative Areas (LAA) for these committee members who make important decisions about how federal farm programs are administered locally. Producers and landowners must return ballots to their local FSA county office or have their ballots be postmarked by Dec. 5, 2022, in order for those ballots to be counted.

Producers must participate or cooperate in an FSA program to be eligible to vote in the county committee election. A cooperating producer is someone who has provided information about their farming or ranching operation but may not have applied or received FSA program benefits. Additionally, producers who are not of legal voting age but supervise and conduct farming operations for an entire farm are eligible to vote in these elections.

Each committee has from three to 11 elected members who serve three-year terms, and at least one seat representing an LAA is up for election each year. Ballots must be in the mail or delivered in person by close of business Dec. 5, 2022, to be counted. Newly elected committee members will take office Jan. 1, 2023.

Producers can find out if their LAA is up for election and if they are eligible to vote by contacting their local FSA county office. Eligible voters who do not receive a ballot in the mail can request one from their local FSA county office. Visit farmers.gov/service-locator to find your local USDA Service Center and fsa.usda.gov/elections for more information.

More Information? ?

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris administration, USDA is transforming America's food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to safe, healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America.
