David Curtis

Message from the SED

Organic Producers and Handlers can apply for federal funds to assist with the cost of receiving and maintaining organic certification through the [Organic Certification Cost Share Program](#) (OCCSP). Applications for fiscal 2019 funding are due Oct. 31, 2019. FSA will also accept applications from state agencies through May 29, 2019, for grant agreements to administer the OCCSP program for fiscal year 2019.

Also, the March 2019 income over feed cost margin was \$8.85 per hundredweight (cwt.), triggering the third payment for dairy producers who purchase the appropriate level of coverage under the new [Dairy Margin Coverage](#) (DMC) program. The signup period for DMC opens June 17, 2019. Dairy producers who elect a DMC coverage level between \$9 and \$9.50 would be eligible for a payment for January, February and March 2019. FSA has announced the availability of the [DMC decision support tool](#) as well as [repayment options](#) for producers who were enrolled in MPP-Dairy.

Please take advantage of every opportunity to learn about other valuable USDA programs and resources that can help you succeed.

Administrative Officer:
Sharon Baker

Enjoy the Family Farm, because it is more than a business, it is a lifestyle – one worth preserving. Until next month...

Please contact your local FSA Office for questions specific to your operation or county. To find contact information for your local office go to www.fsa.usda.gov/ar.

Farm Safety

Flowing grain in a storage bin or gravity-flow wagon is like quicksand — it can kill quickly. It takes less than five seconds for a person caught in flowing grain to be trapped.

The mechanical operation of grain handling equipment also presents a real danger. Augers, power take offs, and other moving parts can grab people or clothing.

These hazards, along with pinch points and missing shields, are dangerous enough for adults; not to mention children. It is always advisable to keep children a safe distance from operating farm equipment. Always use extra caution when backing or maneuvering farm machinery. Ensure everyone is visibly clear and accounted for before machinery is engaged.

FSA wants all farmers to have a productive crop year and that begins with putting safety first.

USDA Farm Service Agency Offers Text Alerts to Producers

Subscribers Can Receive Important Program Reminders and Updates

USDA Farm Service Agency (FSA) announced that farmers and ranchers in Arkansas now can receive notifications from their county office through text messages on their cell phone.

Whether producers are in the field, on a tractor or even on horseback, this service enables FSA customers and stakeholders to receive notifications while on the go. Producers will receive text messages regarding important program deadlines, reporting requirements, outreach events and updates.

Standard text messaging rates apply. Contact your wireless carrier for details associated with your particular data plan. Participants may unsubscribe at any time.

Please contact your local FSA Office (visit farmers.gov/service-locator) if you have questions regarding FSA's email news service or the new text message option.

USDA Announces March Income over Feed Cost Margin Triggers Third 2019 Dairy Safety Net Payment

Dairy Margin Coverage Program Sign-Up Begins June 17

USDA's Farm Service Agency (FSA) announced this week that the March 2019 income over feed cost margin was \$8.85 per hundredweight (cwt.), triggering the third payment for dairy producers who purchase the appropriate level of coverage under the new [Dairy Margin Coverage](#) (DMC) program.

DMC, which replaces the Margin Protection Program for Dairy (MPP-Dairy), offers protection to dairy producers when the difference between the all milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer.

The signup period for DMC opens June 17, 2019. Dairy producers who elect a DMC coverage level between \$9 and \$9.50 would be eligible for a payment for January, February and March 2019.

For example, a dairy operation that chooses to enroll an established production history of 3 million pounds (30,000 cwt.) and elects the \$9.50 coverage level on 95 percent of production would receive \$1,543.75 for March.

Sample calculation:

$\$9.50 - \$8.85 \text{ margin} = \$0.65 \text{ difference}$

$\$0.65 \times 95 \text{ percent of production} \times 2,500 \text{ cwt. (30,000 cwt./12)} = \$1,543.75$

DMC premiums are paid annually. The calculated annual premium for coverage at \$9.50 on 95 percent of a 3-million-pound production history for this example would be \$4,275.

Sample calculation:

$3,000,000 \times 95 \text{ percent} = 2,850,000/100 = 28,500 \text{ cwt.} \times 0.150 \text{ premium fee} = \$4,275$

The dairy operation in the example calculation will pay \$4,275 in total premium payments for all of 2019 and receive \$8,170 in DMC payments for January, February and March combined. Additional payments will be made if calculated margins remain below the \$9.50/cwt level.

All participants are also required to pay an annual \$100 administrative fee in addition to any premium, and payments will be subject to a 6.2 percent reduction to account for federal sequestration.

Operations making a one-time election to participate in DMC through 2023 are eligible to receive a 25 percent discount on their premium for the existing margin coverage rates. For the example above, this would reduce the annual premium by \$1,068.75.

About DMC

On December 20, 2018, President Trump signed into law the 2018 Farm Bill, which provides support, certainty and stability to our nation's farmers, ranchers and land stewards by enhancing farm support programs, improving crop insurance, maintaining disaster programs and promoting and supporting voluntary conservation. FSA is committed to implementing these changes as quickly and effectively as possible, and today's updates are part of meeting that goal.

Recently, FSA announced the availability of the [DMC decision support tool](#) as well as [repayment options](#) for producers who were enrolled in MPP-Dairy.

For DMC signup, eligibility and related dairy program information, visit the [DMC webpage](#) or contact your local USDA service center. To locate your local FSA office, visit farmers.gov/service-locator.

USDA Accepting Applications to Help Cover Producers' Costs for Organic Certification

USDA's Farm Service Agency (FSA) announced that organic producers and handlers can apply for federal funds to assist with the cost of receiving and maintaining organic certification through the [Organic Certification Cost Share Program](#) (OCCSP). Applications for fiscal 2019 funding are due Oct. 31, 2019.

OCCSP received continued support through the 2018 Farm Bill. It provides cost-share assistance to producers and handlers of agricultural products for the costs of obtaining or maintaining organic certification under the USDA's National Organic Program. Eligible producers include any certified producers or handlers who have paid organic certification fees to a USDA-accredited certifying agent. Eligible expenses for cost-share reimbursement include application fees, inspection costs, fees related to equivalency agreement and arrangement requirements, travel expenses for inspectors, user fees, sales assessments and postage.

Certified producers and handlers are eligible to receive reimbursement for up to 75 percent of certification costs each year, up to a maximum of \$750 per certification scope, including crops, livestock, wild crops, handling and state organic program fees.

Opportunities for State Agencies

Today's announcement also includes the opportunity for state agencies to apply for grant agreements to administer the OCCSP program in fiscal 2019. State agencies that establish agreements for fiscal year 2019 may be able to extend their agreements and receive additional funds to administer the program in future years.

FSA will accept applications from state agencies for fiscal year 2019 funding for cost-share assistance through May 29, 2019.

More Information

To learn more about organic certification cost share, please visit the [OCCSP webpage](#), view the [notice of funds availability on the Federal Register](#), or contact your [FSA county office](#). To learn more about USDA support for organic agriculture, visit usda.gov/organic.

Opportunity to Request a Referendum: Soybean Promotion, Research, and Information Program

The USDA Agricultural Marketing Service (AMS) announced that soybean producers may request a referendum on the Soybean Promotion and Research Order, as authorized under the Soybean Promotion, Research, and Consumer Information Act. Participation in the Request for Referendum is voluntary, and producers should only participate if they wish to request a referendum on the program.

The results of the Request for Referendum will be published in a notice in the Federal Register. If at least 10 percent of eligible producers, as determined by USDA, participate in the Request for Referendum, a referendum will be held within one year from that determination.

Interested soybean producers may request a referendum during a four-week period beginning on May 6 and ending May 31, 2019. Form LS-51-1, *Soybean Promotion and Research Order Request for Referendum*, may be [downloaded online](#), or obtained by mail, fax, or in person from Farm Service Agency (FSA) county offices during this time.

Completed forms and supporting documentation must be returned to the appropriate county FSA office by fax or in person no later than close of business May 31, 2019, or if returned by mail, must be postmarked by midnight May 31, 2019, and received in the county FSA office by close of business on June 6, 2019.

For detailed information, including eligibility, read the full [AMS announcement](#). To find your local office, visit www.farmers.gov.

Higher Limits Now Available on USDA Farm Loans

Higher limits are now available for borrowers interested in USDA's farm loans, which help agricultural producers purchase farms or cover operating expenses. The 2018 Farm Bill increased the amount that producers can borrow through direct and guaranteed loans available through USDA's Farm Service Agency (FSA) and made changes to other loans, such as microloans and emergency loans.

Key changes include:

- The Direct Operating Loan limit increased from \$300,000 to \$400,000, and the Guaranteed Operating Loan limit increased from \$ 1.429 million to \$1.75 million. Operating loans help producers pay for normal operating expenses, including machinery and equipment, seed, livestock feed, and more.
- The Direct Farm Ownership Loan limit increased from \$300,000 to \$600,000, and the Guaranteed Farm Ownership Loan limit increased from \$1.429 million to \$1.75 million. Farm ownership loans help producers become owner-operators of family farms as well as improve and expand current operations.
- Producers can now receive both a \$50,000 Farm Ownership Microloan and a \$50,000 Operating Microloan. Previously, microloans were limited to a combined \$50,000. Microloans provide flexible access to credit for small, beginning, niche, and non-traditional farm operations.
- Producers who previously received debt forgiveness as part of an approved FSA restructuring plan are now eligible to apply for emergency loans. Previously, these producers were ineligible.
- Beginning and socially disadvantaged producers can now receive up to a 95 percent guarantee against the loss of principal and interest on a loan, up from 90 percent.

About Farm Loans

Direct farm loans, which include microloans and emergency loans, are financed and serviced by FSA, while guaranteed farm loans are financed and serviced by commercial lenders. For guaranteed loans, FSA provides a guarantee against possible financial loss of principal and interest.

For more information on FSA farm loans, visit www.fsa.usda.gov or contact your [local USDA service center](#).

NAP Buy-Up Coverage Option

The 2018 Farm Bill reinstates higher levels of coverage, from 50 to 65 percent of expected production in 5 percent increments, at 100 percent of the average market price. Producers of organics and crops marketed directly to consumers also may exercise the “buy-up” option to obtain NAP coverage of 100 percent of the average market price at the coverage levels of between 50 and 65 percent of expected production. NAP basic coverage is available at 55 percent of the average market price for crop losses that exceed 50 percent of expected production.

Producers have a *one-time opportunity until May 24, 2019*, to obtain buy-up coverage for 2019 or 2020 eligible crops for which the NAP application closing date has passed.

Buy-up coverage is not available for crops intended for grazing.

NAP Service Fees

For all coverage levels, the new NAP service fee is the lesser of \$325 per crop or \$825 per producer per county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties. These amounts reflect a \$75 service fee increase for crop, county or multi-county coverage. The fee increases apply to obtaining NAP coverage on crops on or after April 8, 2019.

NAP Enhancements for Qualified Military Veterans

The 2018 Farm Bill NAP amendments specify that qualified veteran farmers or ranchers are now eligible for a service fee waiver and premium reduction, if the NAP applicant meets certain eligibility criteria.

Beginning, limited resource and targeted underserved farmers or ranchers remain eligible for a waiver of NAP service fees and premium reduction when they file form CCC-860, “*Socially Disadvantaged, Limited Resource and Beginning Farmer or Rancher Certification*.”

For NAP application, eligibility and related program information, visit www.fsa.usda.gov/nap or contact your local USDA Service Center. To locate your local FSA office, visit www.farmers.gov.

Communication is Key in Lending

Farm Service Agency (FSA) is committed to providing our farm loan borrowers the tools necessary to be a success. A part of ensuring this success is providing guidance and counsel from the loan application process through the borrower's graduation to commercial lending institutions. While it is FSA's commitment to advise borrowers as they identify goals and evaluate progress, it is crucial for borrowers to communicate with their farm loan staff when changes occur. It is the borrower's responsibility to alert FSA to any of the following:

- Any proposed or significant changes in the farming operation;
- Any significant changes to family income or expenses;
- The development of problem situations;
- Any losses or proposed significant changes in security

In addition, if a farm loan borrower cannot make payments to suppliers, other creditors, or FSA on time, contact your farm loan staff immediately to discuss loan servicing options.

For more information on FSA farm loan programs, visit www.fsa.usda.gov.

Rates and Dates

Selected Interest Rates for May 2019		Dates to Remember	
90-Day Treasury Bill	2.500	May 24	NAP buy-up deadline
Farm Operating Loans — Direct	3.500	May 31	Last day to request 2018 MAL commodity loan on corn, sorghum, rice, soybeans, cotton
Farm Ownership Loans — Direct	4.000		FCIC Final Planting Dates
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher	1.500	May 15	Grain Sorghum
Emergency Loans	3.750	May 20	UPCN for all counties except Arkansas Ashley Bradley, Chicot, Clark, Dallas, Desha, Drew, Jefferson, Lafayette, Lee, Lincoln, Little River, Lonoke, Miller, Monroe, Phillips, Prairie & Pulaski which is May 25th .
Farm Storage Facility Loans (3 years)	2.250		
Farm Storage Facility Loans (7 years)	2.375	May 25	Rice & Peanuts
Commodity Loans 1996-Present	3.375	June 15	Soybeans – initial crop
		June 25	Soybeans – following another crop
