Brenda Miller

Farm Loan:
Bill Morrison- Worland Tom
Schambow- Powell

Program Technician:
Connie Werbelow
County Committee:
Michael Rasmussen- Chairman
Spencer Ellis- Vice-Chairman
Martin Mercer- Member

Next County Committee Meeting: September 10, 1:30PM

CED Notes

Harvest is upon us and we are wishing you all a safe harvest season. Signup for the Market Facilitation Program for 2019 has begun and will continue through December 6. This program is paying \$15.00 per acre for approved crops. At the end of the month office staff will be attending state training to get updates on the new farm bill programs. Signup information will be forthcoming once announced for those programs.

It's time again to think about our County Committee election. This year we are holding our election in Local Administrative Area 2, which covers all ground west of the Big Horn River, south of sheep mountain including all ground south of Manderson to the Washakie County line. We have one nomination this year but still encourage all producers in this area to participate in the election process. Ballots will be mailed out in early November.

It is important to sign up for electronic GovDelivery, this is our way of getting information out to you on program signups and deadlines. There is also a texting option available for anyone interested in receiving program information this way. For more information contact our office.

Happy harvesting and as always, we are here for your agricultural needs, please don't hesitate to contact our office.

USDA Opens Signup for Market Facilitation Program

Enrollment Now Open through Dec. 6

Signup opens today for the Market Facilitation Program (MFP), a U.S. Department of Agriculture (USDA) program to assist farmers who continue to suffer from damages because of unjustified trade retaliation from foreign nations. Through MFP, USDA will provide up to \$14.5 billion in direct payments to impacted producers, part of a broader trade relief package announced in late July. The sign-up period runs through Dec. 6.

MFP payments will be made to producers of certain non-specialty and specialty crops as well as dairy and hog producers.

Non-Specialty Crops

MFP payments will be made to producers of alfalfa hay, barley, canola, corn, crambe, dried beans, dry peas, extra-long staple cotton, flaxseed, lentils, long grain and medium grain rice, millet, mustard seed, oats, peanuts, rapeseed, rye, safflower, sesame seed, small and large chickpeas, sorghum, soybeans, sunflower seed, temperate japonica rice, triticale, upland cotton, and wheat.

MFP assistance for 2019 crops is based on a single county payment rate multiplied by a farm's total plantings to the MFP-eligible crops in aggregate in 2019. Those per acre payments are not dependent on which of those crops are planted in 2019. A producer's total payment-eligible plantings cannot exceed total 2018 plantings. [View payment rates by county.](#)

Dairy and Hogs

Dairy producers who were in business as of June 1, 2019, will receive a per hundredweight payment on production history, and hog producers will receive a payment based on the number of live hogs owned on a day selected by the producer between April 1 and May 15, 2019.

Specialty Crops

MFP payments will also be made to producers of almonds, cranberries, cultivated ginseng, fresh grapes, fresh sweet cherries, hazelnuts, macadamia nuts, pecans, pistachios, and walnuts. Each specialty crop will receive a payment based on 2019 acres of fruit or nut bearing plants, or in the case of ginseng, based on harvested acres in 2019.

More Information

Payments will be made in up to three tranches, with the second and third tranches evaluated as market conditions and trade opportunities dictate. If conditions warrant, the second and third tranches will be made in November and early January.

MFP payments are limited to a combined \$250,000 for non-specialty crops per person or legal entity. MFP payments are also limited to a combined \$250,000 for dairy and hog producers and a combined \$250,000 for specialty crop producers. However, no applicant can receive more than \$500,000. Eligible applicants must also have an average adjusted gross income (AGI) for tax years 2015, 2016, and 2017 of less than \$900,000, or 75 percent of the person's or legal entity's average AGI for those tax years must have been derived from farming and ranching. Applicants must also comply with the provisions of the Highly Erodible Land and Wetland Conservation regulations.

More information can be found on farmers.gov/mfp, including payment information and a program application.

FSA Encourages Farmers and Ranchers to Vote in County Committee Elections

The 2019 Farm Service Agency County Committee Elections began on Nov. 4, when ballots were mailed to eligible voters. The deadline to return the ballots to local FSA offices, or to be postmarked, is Dec. 2, 2019.

County committee members are an important component of the operations of FSA and provide a link between the agricultural community and USDA. Farmers and ranchers elected to county committees help deliver FSA programs at the local level, applying their knowledge and judgment to make decisions on commodity price support programs; conservation programs; incentive indemnity and disaster programs for some commodities; emergency programs and eligibility. FSA committees operate within official regulations designed to carry out federal laws.

To be an eligible voter, farmers and ranchers must participate or cooperate in an FSA program. A person who is not of legal voting age but supervises and conducts the farming operations of an entire farm, may also be eligible to vote.

Eligible voters in local administrative area (LAA-2), who do not receive a ballot can obtain one from their local USDA Service Center.

Newly elected committee members will take office Jan. 1, 2020.

The candidate in this year's election is: Michael Rasmussen

Michael is nominated in LAA 2, Big Horn County, to serve as a committee member for a 3-year term. Michael, his wife and three children are residence of Burlington and have produced Dry Beans, Barley, Beets, Alfalfa Seed, Corn and Oats for 10 years. He is an active member of the Wyoming Alfalfa Seed Growers Association and serves as President of the Emblem Bench Canal along with being the current Chairman of the Big Horn County FSA Committee.

More information on county committees, such as the new 2019 fact sheet, can be found on the FSA website at fsa.usda.gov/elections or at a local USDA Service Center.

Higher Limits Now Available on USDA Farm Loans

Higher limits are now available for borrowers interested in USDA's farm loans, which help agricultural producers purchase farms or cover operating expenses. The 2018 Farm Bill increased the amount that producers can borrow through direct and guaranteed loans available through USDA's Farm Service Agency (FSA) and made changes to other loans, such as microloans and emergency loans.

Key changes include:

- The Direct Operating Loan limit increased from \$300,000 to \$400,000, and the Guaranteed Operating Loan limit increased from \$ 1.429 million to \$1.75 million. Operating loans help producers pay for normal operating expenses, including machinery and equipment, seed, livestock feed, and more.
- The Direct Farm Ownership Loan limit increased from \$300,000 to \$600,000, and the Guaranteed Farm Ownership Loan limit increased from \$1.429 million to \$1.75 million. Farm ownership loans

help producers become owner-operators of family farms as well as improve and expand current operations.

- Producers can now receive both a \$50,000 Farm Ownership Microloan and a \$50,000 Operating Microloan. Previously, microloans were limited to a combined \$50,000. Microloans provide flexible access to credit for small, beginning, niche, and non-traditional farm operations.
- Producers who previously received debt forgiveness as part of an approved FSA restructuring plan are now eligible to apply for emergency loans. Previously, these producers were ineligible.
- Beginning and socially disadvantaged producers can now receive up to a 95 percent guarantee against the loss of principal and interest on a loan, up from 90 percent.

About Farm Loans

Direct farm loans, which include microloans and emergency loans, are financed and serviced by FSA, while guaranteed farm loans are financed and serviced by commercial lenders. For guaranteed loans, FSA provides a guarantee against possible financial loss of principal and interest.

For more information on FSA farm loans, visit www.fsa.usda.gov or contact your [local USDA service center](#).

Persons with disabilities who require accommodations to attend or participate in this meeting should contact Brenda Miller at 307-765-2689 extension 2 or Federal Relay Service at 1-800-877-8339.
