Teresa Shelton  
FLPT Vacant

**County Committee:**  
Julie Haun, Chairperson  
Kirk Tolman, Vice Chairperson  
Jim Butterfield, Member  
Everett Jones, Member  
Arnold Pennoyer, Member

### USDA Opens Signup for Market Facilitation Program

*Enrollment Now Open through Dec. 6*

Signup opens today for the Market Facilitation Program (MFP), a U.S. Department of Agriculture (USDA) program to assist farmers who continue to suffer from damages because of unjustified trade retaliation from foreign nations. Through MFP, USDA will provide up to \$14.5 billion in direct payments to impacted producers, part of a broader trade relief package announced in late July. The sign-up period runs through Dec. 6.

MFP payments will be made to producers of certain non-specialty and specialty crops as well as dairy and hog producers.

#### **Non-Specialty Crops**

MFP payments will be made to producers of alfalfa hay, barley, canola, corn, crambe, dried beans, dry peas, extra-long staple cotton, flaxseed, lentils, long grain and medium grain rice, millet, mustard seed, oats, peanuts, rapeseed, rye, safflower, sesame seed, small and large chickpeas, sorghum, soybeans, sunflower seed, temperate japonica rice, triticale, upland cotton, and wheat.

MFP assistance for 2019 crops is based on a single county payment rate multiplied by a farm's total plantings to the MFP-eligible crops in aggregate in 2019. Those per acre payments are not dependent on which of those crops

**Next County Committee Meeting: TBD**

are planted in 2019. A producer's total payment-eligible plantings cannot exceed total 2018 plantings. [View payment rates by county.](#)

### **Dairy and Hogs**

Dairy producers who were in business as of June 1, 2019, will receive a per hundredweight payment on production history, and hog producers will receive a payment based on the number of live hogs owned on a day selected by the producer between April 1 and May 15, 2019.

### **Specialty Crops**

MFP payments will also be made to producers of almonds, cranberries, cultivated ginseng, fresh grapes, fresh sweet cherries, hazelnuts, macadamia nuts, pecans, pistachios, and walnuts. Each specialty crop will receive a payment based on 2019 acres of fruit or nut bearing plants, or in the case of ginseng, based on harvested acres in 2019.

### **More Information**

Payments will be made in up to three tranches, with the second and third tranches evaluated as market conditions and trade opportunities dictate. If conditions warrant, the second and third tranches will be made in November and early January.

MFP payments are limited to a combined \$250,000 for non-specialty crops per person or legal entity. MFP payments are also limited to a combined \$250,000 for dairy and hog producers and a combined \$250,000 for specialty crop producers. However, no applicant can receive more than \$500,000. Eligible applicants must also have an average adjusted gross income (AGI) for tax years 2015, 2016, and 2017 of less than \$900,000, or 75 percent of the person's or legal entity's average AGI for those tax years must have been derived from farming and ranching. Applicants must also comply with the provisions of the Highly Erodible Land and Wetland Conservation regulations.

More information can be found on [farmers.gov/mfp](http://farmers.gov/mfp), including payment information and a program application.

---

## **Environmental Review Required Before Project Implementation**

The National Environmental Policy Act (NEPA) requires Federal agencies to consider all potential environmental impacts for federally-funded projects before the project is approved.

For all Farm Service Agency (FSA) programs, an environmental review must be completed before actions are approved, such as site preparation or ground disturbance. These programs include, **but are not limited to**, the Emergency Conservation Program (ECP), Farm Storage Facility Loan (FSFL) program and farm loans. If project implementation begins before FSA has completed an environmental review, this will result in a denial of the request. There are exceptions regarding the Stafford Act and emergencies. It is important to wait until you receive written approval of your project proposal before starting any actions, including, but not limited to, vegetation clearing, site preparation or ground disturbance.

Remember to contact your local FSA office early in your planning process to determine what level of environmental review is required for your program application so that it can be completed timely.

Applications cannot be approved contingent upon the completion of an environmental review. FSA must have copies of all permits and plans before an application can be approved.

---

## Reminder to FSA Direct and Guaranteed Borrowers with Real Estate Security

Farm Service Agency would like to remind farm loan borrowers who have pledged real estate as security for their loans, of key items for maintaining loan collateral. It is required that borrowers must obtain prior consent, or approval, by either FSA, for direct loans, or by a guaranteed lender, for any transaction affecting real estate security. Examples of these transactions include, but are not limited to:

- Leases of any kind;
- Easements of any kind;
- Subordinations;
- Partial releases, and
- Sales

Failure to meet or follow the requirements set forth in the loan agreement, promissory note, and other security instruments could lead to nonmonetary default which could jeopardize your current and future loans.

It is critical that borrowers keep an open line of communication with their FSA loan staff or guaranteed lender when it comes to changes in their operation. For more information on borrower responsibilities, read [Your FSA Farm Loan Compass](#).

---

Persons with disabilities who require accommodations to attend or participate in this meeting should contact [Lisa Bower](#) at [307-347-2456](tel:307-347-2456) extension 2 or Federal Relay Service at 1-800-877-8339.
