CONSERVATION RESERVE PROGRAM
ENROLLMENT ACTIVITY AND NEWS –OCTOBER 2019

- Enrollment ends October 2019 at 22.0 million acres.
- Continuous signup including CREP was opened for selected high-priority practices and CREP on June 3, 2019 and closed on August 23, 2019. The FY 2019 continuous signup (#52) enrolled about 245,000 acres.
- A 1-year extension for contracts that expired September 30, 2019 was offered. Not eligible are practices eligible for continuous signup and contracts that have contract lengths of more than 14 years. This causes FY 2019 expirations to decline and FY 2020 expirations to increase. About 970,000 acres (81% of eligible acres) were extended.

*Excludes lands enrolled in CREP and lands where contracts do not start until October (FY 2021).

General Signup. Producers with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates and select wildlife-enhancing vegetative covers to increase EBI ranking.

Continuous (Non-CREP) Sign-up. Producers with eligible lands may enroll certain high priority conservation practices, such as filter strips, riparian buffers, and wetlands at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives. Lands enrolled under various initiatives are included in this category.

Conservation Reserve Enhancement Program (CREP). Under CREP agreements, Federal/State partnerships, implement projects designed to address specific environmental objectives through targeted CRP enrollments. Sign-up is held on a continuous basis, general sign-up practices may be included, and additional financial incentives are generally provided.

Farmable Wetland Program (FWP). Producers enroll small non-flood plain wetlands, and new practices added by the 2008 Farm Bill, under modified continuous sign-up provisions.

Grasslands. Enrollments are to support grazing operations and to preserve and restore grasslands. No cropping history is required.

The accompanying tables are based on contract data developed and maintained in CRP data files by USDA Service Centers through the **end of October** and are based on the physical location of the CRP contracted land. Some adjustments have been made to correct miscoded data in the active contract files.
